

Welders

In this position, you will be responsible for custom fabrication, machinery, equipment repair and structural construction.

Essential Qualifications

- Proficiency in welding techniques, such as shielded metal arc welding (SMAW), gas metal arc welding (GMAW) (MIG) and flux core arc welding (FCAW)
- Familiarity with operating manual, semi-automatic and fully automatic welding and flame-cutting equipment, oxygen arc cutting equipment (arc-air) (AOC) and drill presses
- Working knowledge of setting up welding machines to fabricate/repair metal parts and products
- The ability to work flexible hours with possible overtime or on-call shifts

Salary range: \$14.00 – \$30.00 per hour based on experience and certification.

These positions are shop-based in our Fabrication Facilities in Brooks, Nisku and Calgary, AB.
